Consumer Outreach

Describe consumer outreach efforts in the past 12 months: Compliant handset models offered by Spencer Municipal Utilities, a reseller of Iowa Wireless services, are publicly identified for consumers and audiologists. Compliant models are listed on the company website, and retail salespersons are trained to assist with compliant digital wireless phones. Compliant handsets are available for testing from live phone displays in retail locations. Written materials,

pamphlets and other promotional literature are provided at the point of sale and on the website, addressing the needs of individuals with hearing disabilities. Consumers are given a 14-day trial period to try out digital wireless phones to determine whether they will work properly with their hearing aids.

Methodology for Functionality Levels

Handset models are categorized by capabilities regarding features and functionalities. Basic handsets are entry level handsets that are offered for a low cost. Featured handsets are handsets with more advanced capabilities. Smartphones and PDAs are handsets that run complete operating system software as a platform or application developers.

Report Remarks
